**Notes to Financial Statements**

**As at March 31, 2006 and 2005**

*Canadian Funds*

---

**1. Nature of Operations and Continuing Operations**

Alto Ventures Ltd. ("the Company") is engaged in the acquisition, exploration and development of Canadian gold projects with near term production potential. It is in the process of exploring its mineral properties and has not yet determined whether these properties contain mineral reserves that are economically recoverable. These financial statements have been prepared on a going concern basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has a working capital of \$1,068,256 (2005 - \$1,384,106) and accumulated deficit of \$7,077,904 (2005 - \$6,354,879). Its ability to continue as a going concern is dependant upon the continued support of related parties, the ability of the Company to raise equity financing, the discovery of economically recoverable reserves and the attainment of profitable operations. These financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

**2. Significant Accounting Policies**

These financial statements have been prepared in accordance with generally accepted accounting principles in Canada, on the assumption that the Company is a going concern.

Because a precise determination of certain assets and liabilities is dependant on future events, the preparation of the financial statements involves the use of estimates based on careful judgement and actual results could differ from such estimates. The financial statements have, in management's opinion, been prepared within reasonable limits of materiality using the significant accounting policies noted below:

**a) Cash and Cash Equivalents**

For purposes of reporting cash flows, the Company considers cash and cash equivalents to include amounts held in banks and highly liquid debt investments with remaining maturities at point of purchase of three months or less. The Company places its cash and cash investments with institutions of high credit worthiness. At times, such investments may be in excess of federal insurance limits.

**b) Loss per Share**

Loss per share is computed by dividing losses attributable to common shareholders by the weighted average number of common shares outstanding during the period. The computation of diluted earnings per share assumes the conversion, exercise or contingent issuance of securities only when such conversion, exercise or issuance would have a dilutive effect on earnings per share. The dilutive effect of convertible securities is reflected in diluted earnings per share by application of the "if converted" method. The dilutive effect of outstanding options and warrants and their equivalents are reflected in diluted earnings per share by application of the treasury stock method.

**c) Fair Market Value of Financial Instruments**

The Company's financial instruments consist of cash and cash equivalents, marketable securities, GST/QST receivable, advances from related parties and accounts payable. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from the financial instruments. The fair value of these financial instruments approximates their carrying value due to their short-term maturity or capacity of prompt liquidation

**Alto Ventures Ltd.**

*(A Development Stage Company)*

**Notes to Financial Statements**

**As at March 31, 2006 and 2005**

*Canadian Funds*

---

**2. Significant Accounting Policies - Continued**

**d) Stock-based compensation**

The Company adopted the recommendations of CICA Handbook Section 3870, "*Stock-based Compensation and Other Stock-based Payments*". The standard requires that all stock-based awards made to employees and non-employees be measured and recognized using a fair value based method. The Company recognizes compensation expense for each grant on the later of the date of regulatory approval of the grant and the date of vesting, as applicable.

**e) Property and Equipment**

Property and equipment are valued at cost less accumulated amortization. The Company provides for amortization for all property and equipment classes using the declining balance method at rates between 20% and 45% and applies only one-half of the applicable rate in the year of acquisition.

**f) Asset Retirement Obligations – Change in accounting policy**

Effective 1 July 2004, the Company adopted the recommendations of CICA Handbook Section 3110, *Asset Retirement Obligations*. This new section requires recognition of a legal liability for obligations relating to retirement of property, plant, and equipment, and arising from the acquisition, construction, development, or normal operation of those assets. Such asset retirement cost must be recognized at fair value, when a reasonable estimate of fair value can be estimated, in the period in which it is incurred, added to the carrying value of the asset, and amortized into income on a systematic basis over its useful life.

There is no material impact on the financial statements resulting from the adoption of Section 3110 either in the current or prior years presented.

**g) Income Taxes**

The Company accounts for income taxes using the asset and liability method. Future taxes are recognized for the tax consequences of "temporary differences" by applying enacted or substantively enacted statutory tax rates applicable to future years on differences between the financial statement carrying amounts and tax basis of existing assets and liabilities. The effect on deferred taxes for a change in tax rates is recognized in income during the period that includes the date of enactment or substantive enactment. In addition, the method requires the recognition of future tax benefits to the extent that realization of such benefits is more likely than not.

**h) Investments**

Investments, in which the Company has less than a 20% interest and where the Company has no significant influence, are recorded at the lower of cost or market value. Investments are written down to market value when the decline in market value is deemed to be other than temporary.

**Alto Ventures Ltd.**  
*(A Development Stage Company)*  
**Notes to Financial Statements**  
**As at March 31, 2006 and 2005**  
*Canadian Funds*

---

**2. Significant Accounting Policies - Continued**

**i) Mineral Properties**

The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

Mineral exploration and development costs are capitalized on an individual prospect basis until such time as an economic ore body is defined or the prospect is abandoned. Costs for a producing prospect are amortized on a unit-of-production method based on the estimated life of the ore reserves, while costs for the prospects abandoned are written off.

The recoverability of the amounts capitalized for the undeveloped mineral properties is dependent upon the determination of economically recoverable ore reserves, confirmation of the Company's interest in the underlying mineral claims, the ability to farm out its mineral properties, the ability to obtain the necessary financing to complete their development, and future profitable production or proceeds from the disposition thereof.

The Company assesses its capitalized mineral property costs on a regular basis. A property is written-down or written-off when the Company determines that a permanent impairment of value has occurred or when exploration results indicate that no further work is warranted. The Company will also reduce its capitalized mineral property costs if no active exploration has been conducted on the property for a period of three or more years.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge; title to all of its properties is in good standing.

**j) Mineral Exploration Tax Credits ("METC")**

The Company recognizes METC amounts when the Company's METC application is approved by Canada Revenue Agency ("CRA") auditors or when the amount to be received can be reasonably estimated and collection is reasonably assured.

**k) Property Option Agreements**

From time to time, the Company may acquire or dispose of properties pursuant to the terms of option agreements. Due to the fact that options are exercisable entirely at the discretion of the optionee, the amounts payable or receivable are not recorded. Option payments are recorded as resource property costs or recoveries when the payments are made or received.

**l) Variable Interest Entities - Change in Accounting Policy**

The Accounting Standards Board (AcSB) issued Accounting Guideline AcG 15 "Consolidation of Variable Interest Entities", to harmonize the Guideline with the equivalent FASB Interpretation No. 46R, "Consolidation of Variable Interest Entities." ("VIE") The Guideline provides criteria for identifying VIEs and further criteria for determining what entity, if any, should consolidate them. The Guideline is effective for annual and interim periods beginning on or after November 1, 2004, and upon adoption, will not materially impact the Company's results of operations and financial position.

**Alto Ventures Ltd.**

(A Development Stage Company)

**Notes to Financial Statements**

As at March 31, 2006 and 2005

Canadian Funds

---

**2. Significant Accounting Policies - Continued**

m) **Share Capital**

- i) The proceeds from the exercise of stock options, warrants and escrow shares are recorded as share capital in the amount for which the option, warrant or escrow share enabled the holder to purchase a share in the Company.
- ii) Share capital issued for non-monetary consideration is recorded at an amount based on fair market value reduced.

n) **Impairment of Long-Lived Assets**

The Company follows the CICA Handbook Section 3063, "Impairment of Long-Lived Assets" ("HB 3063"). HB 3063 requires the Company to assess the impairment of long-lived assets, which consist primarily of property, plant and equipment, whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying value of the asset to its fair value. If such assets are considered to be impaired, the amount of the impairment is measured by the amount by which the carrying amount of the asset exceeds its fair value.

**3. Marketable Securities**

Marketable securities consist of 60,000 shares of Noront Resources Inc. ("Noront") at a cost of \$9,000 and market value of \$11,400 on March 31, 2006. The Company's share ownership in Noront is very minimal and they have no control or significant influence over Noront.

**4. Property and Equipment**

	Cost	Accumulated Amortization	2006 Net Book Value	2005 Net Book Value
Computer equipment	\$ 17,021	\$ 8,019	\$ 9,002	\$ 6,909

**a) Alcudia Claims**

Pursuant to an agreement dated February 22, 1996 the Company acquired from Alcudia Capital Incorporated (“Alcudia”) a 100% interest in 20 mineral claims located in Urban Township, Province of Quebec. As consideration, the Company issued 100,000 common shares valued at \$10,000 (\$0.10 per share). The property is subject to a 2% net smelter return royalty (“NSR”) in favour of Alcudia in which a former director has an interest.

**b) Coldstream Property**

Pursuant to a letter of agreement dated August 1, 2002 with Hidefield Gold, PLC (“Hidefield”), a company with directors in common with the Company, the Company was granted an option to acquire a 100% interest in 71 contiguous patented claims and licenses of occupation in the Burchell Lake area, Thunder Bay, Ontario. As consideration, the Company issued 800,000 shares valued at \$80,000 (\$0.10 per share) to Hidefield and is required to expend \$100,000 (expended) in exploration expenditures over a three-year period. The property is subject to a 2% NSR. The Company also staked twenty mining claims adjoining the property. Pursuant to another letter agreement dated October 28, 2002 with Kinross Gold Corporation (“Kinross”) the Company had granted Kinross an option to acquire a 60% interest in the property. As consideration, Kinross had committed to spend \$200,000 prior to October 17, 2003 and an additional \$1,300,000 by October 17, 2004. On June 10, 2003, Kinross withdrew from the option, and \$8,000 was paid to the Company as complete fulfillment of its commitments on the property.

**5. Investment - Mineral Properties - *Continued***

**c) Oxford Lake Property**

By agreements dated June 4, 2004 the Company purchased the Oxford Lake Gold property located in the Gods Lake area of northern Manitoba from Hidefield, a company with directors in common with the Company, and Anglo Pacific Group plc (Symbol "APF"), in consideration for 4,000,000 common shares of the Company to HIF and 4,000,000 common shares to APF.

By agreement dated March 22, 2005, the Company acquired a 100% interest in additional 150 hectare on the Oxford Lake property from W. Bruce Dunlop Limited NPL, an unrelated party. The consideration for the acquisition includes a cash payment of \$25,000 and the issuance of 200,000 common shares of the Company. Further, the vendor will retain a 2.5% NSR royalty of which the Company can repurchase 1% for \$1,000,000.

In addition to this acquisition, the Company has been granted a 5,516 hectare mineral exploration permit surrounding the Company's existing claims.

**d) Despinassy JV Property**

The Despinassy JV property is located in Despinassy Township, approximately 75 km northeast of Val D'Or, Quebec and lies within the Archean age Abitibi greenstone belt in the eastern Superior Province in Quebec. The property consists of 113 claims totaling 4453.6 hectares.

Pursuant to an agreement dated September 30, 2004, the Company acquired an option to earn 70% interest in a joint venture with Commander Resources Ltd. ("Commander") from Cameco Corporation ("Cameco"). To complete the acquisition of its 70% interest, the Company must pay an additional \$50,000 (paid), pay a further \$50,000 (paid) in cash or shares, at the Company's option, after 6 months (paid in cash), make four further payments of \$100,000, as to \$25,000 in cash and \$75,000 in cash or shares, at the Company's option, on the first (first paid and issued) to fourth anniversary dates and make a final payment on the fifth anniversary of \$50,000 in cash and \$150,000 in cash or shares, at the Company's option to "Cameco".

The Company was also required to issue 100,000 common shares (issued) to Commander in closing of the JV agreement.

**e) Greenoaks Gold Property**

By agreements dated June 4, 2004, the Company acquired the Greenoaks Gold property comprising 15 leasehold patents located in the Beardmore-Geraldton Gold District, Northwest Ontario from Hidefield in consideration for 4,500,000 common shares (issued) of the Company.

#### **f) Dog Lake Property**

By agreements dated June 4, 2004, the Company purchased the Dog Lake Gold property located approximately 14 kilometres southwest of Missinabie, Ontario from Hidefield in consideration for 2,200,000 (issued) common shares of the Company. The Dog Lake property consists of 8 patented claims covering 155 hectares, located in the Michipicoten greenstone belt.

#### **g) Mud Lake Property**

On August 1, 2004, the Company obtained the option from, an unrelated party, to acquire a 100% interest in the Mud Lake property by making a cash payment of \$10,000 and issuing 50,000 common shares of the Company (issued and paid) on signing the agreement, a cash payment of \$15,000 (paid) and issuing 50,000 shares upon the first anniversary date of the agreement and a cash payment of \$15,000 and issuing 50,000 shares upon the second anniversary date of the agreement. The vendors will retain a 2.5% NSR and the Company has the right to buyback 1.5% of the NSR for \$500,000. The Mud Lake property consists of 1,664 hectares located in the Geraldton – Beardmore gold camp.

#### **h) Cote-Archie Lake Property**

On September 13, 2004, the Company obtained the option from, an unrelated party, to acquire a 100% interest in the Cote-Archie Lake property by making a cash payment of \$20,000 and issuing 50,000 common shares of the Company (issued and paid) on signing of the agreement, a cash payment of \$10,000 and issuing 50,000 shares upon the first anniversary date of the agreement and a cash payment of \$10,000 and issuing 50,000 shares (issued) upon the second anniversary date of the agreement. The vendors will retain a 2.0% NSR and Alto has the right to buyback 1.0% of the NSR for \$1,000,000. The Cote-Archie Lake property consists of 18 claims totalling 2,352 hectares and covers 12 kilometres of prospective ground east of, and along strike from, the productive vein system developed in the Leitch mine.

#### **i) Empress-Ridout Property**

On June 15, 2005, the Company entered into an agreement with Cameco Corporation (“Cameco”) to acquire a 100% interest in the Empress-Ridout Property located in the province of Ontario by making a cash payment of \$20,000 (paid) upon the closing date of the agreement. The agreement is subject to a 2% NSR with the Company being obligated to pay a 1% NSR to the owners of the property and Cameco retaining an obligation to pay the remaining 1%. The Empress Property consists of 16 claims located in the Syine Township and Santoy Lake area.

**10. Commitments**

Entered into a services agreement, effective February 1, 2006, with HRG Management Ltd. ("HRG") in which the Company will pay a monthly corporate administration fee of \$14,531 which includes office administration, accounting, corporate secretarial, chief financial officer, investor relations and other related services. HRG is a captive management company jointly owned by the Company and certain other public companies, all of which share office space. The Company shares two common directors with HRG.

**11. Subsequent event**

- Subsequent to March 31, 2006, the Company agreed to acquire 100% interest in the Burchell Lake gold property, located 100 kilometres west of Thunder Bay, Ontario from Inco Limited. The property acquired consists of 416 hectares and adjoins the Companies Coldstream gold property. The claims are being acquired in exchange for a one time cash payment of \$20,000 and 250,000 common shares of the Company. There are no royalties and the property is in good standing until 2010.
- Subsequent to March 31, 2006, the Company agreed to acquire a 100% interest in 16 claims covering 256 hectares in the Shebandowan greenstone belt of Northwestern Ontario from Canadian Golden Dragon. The agreement provides for an option to purchase for a cash payment of \$90,000 and the issuance of 400,000 common shares of the Company in instalments over three years and a 1% Net Smelter Return royalty.
- Subsequent to March 31, 2006, the Company agreed to acquire a 100% interest in 34 claims covering 544 hectares immediately adjacent to the Company's Coldstream project from Dino D'Angelo and Peter G.F. Young in exchange for \$4,000 cash and the issuance of 50,000 common shares of the Company. There is a 2% Net Smelter Returns Royalty that the Company has the right to buyout 1.0% at a cost of \$1,000,000. The property is located 100 kilometres west of Thunder Bay, Ontario in the Shebandowan greenstone belt.

**ALTO VENTURES LTD.**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2006**

---

## **INTRODUCTION**

The following discussion of performance and financial condition should be read in conjunction with the annual audited financial statements of the Company for the year ended June 30, 2005. The Company's financial statements are prepared in accordance with Canadian GAAP. The Company's reporting currency is Canadian dollars unless otherwise stated. The date of this Management's Discussion and Analysis is May 29, 2006.

## **DESCRIPTION OF BUSINESS**

Alto Ventures Ltd. (the "Company") was incorporated under the provisions of the Company Act (British Columbia) on June 6, 1987. The Company is listed on the TSX Venture Exchange (the "Exchange") as a Tier 2 mining issuer under the trading symbol - **ATV**.

The Company is in the business of acquiring and exploring gold projects. There has been no determination whether these properties contain reserves which are economically recoverable.

The recoverability of values assigned to these gold properties is dependent upon the discovery of economically recoverable reserves, the ability to obtain necessary financing to complete development, and future profitable production or proceeds from disposition.

## **RESULTS OF OPERATIONS**

### **Current Quarter**

The Company incurred a \$176,093 loss for the three months ended March 31, 2006 as compared to a loss of \$83,796 for the same period last year. This amounts to a \$92,297 increase over the same quarter last year. Expenses that increased were stock option compensation (\$95,285) and expanded investor relations and corporate communications (\$32,088). The Company made a gain on marketable securities by divesting a portion of its holdings in Noront Resources Inc. (\$26,825).

Cash and cash equivalents balance increased by \$706,919 to \$1,053,705 at March 31, 2006. The cash spending for mineral properties was \$314,434. Cash expenditures on exploration focused on the Despinassy JV (\$295,521), on Cotie Archie Lake (\$10,181) and Mud Lake (\$9,051).

### **YTD**

The Company incurred a \$422,603 loss for the nine month period ended March 31, 2006 as compared to a loss of \$525,626 for the same period last year. This amounts to a \$103,023 decrease over same period last year. Expenses that decreased were stock-based compensation (\$125,636), regulatory fees (\$32,641), management fees (\$23,429) and gains on sale of marketable securities of \$38,873 (Noront Resources Inc.). Increases were due to expanded investor relations and corporate communications (\$72,728), director's fees (\$24,000) and office expenses (\$19,173).

Cash and cash equivalents balance increased by \$65,419 to \$1,053,705 at March 31, 2006. The cash spending for mineral properties was \$649,849. Cash expenditures on exploration included \$82,515 on Mud Lake, \$344,060 on the Despinassy JV, \$27,817 on Oxford Lake, Cote-Archie Lake (\$87,569), Coldstream (\$30,802) and \$77,086 on other/new projects.

a) Despinassy Property, Quebec

The Despinassy project is located in Despinassy Township, approximately 75 km northeast of Val d'Or, Quebec and lies within the Archean age Abitibi greenstone belt in the eastern Superior Province in Quebec. The property consists of 4,454 hectares are held by the Despinassy Joint Venture. The Company has entered into a sales and purchase agreement for a 70 % interest in the property from Cameco Corporation with Commander Resources Ltd. as a 30% joint venture partner. In addition, Alto holds 6,457 hectares of 100% held ground. Prior to Alto's acquisition of the property, a total of 23,005 metres (m) was drilled by Cameco and previous operators, resulting in the discovery of the DAC deposit with gold mineralization encountered to a depth of 600 m and over a 5 km strike extent along the Despinassy Shear Zone.

Following a first phase drill program of 5,307 m last year, a mineral resource study by Hubacheck Consulting Geologists (HCG) of Mississauga, Ontario found that there was enough drill hole data to conclude that DAC deposit has gold potential for up to approximately 670,000 tonnes grading in a range from 6.8 g/t to 7.8 g/t. The results of the report confirm both the continuity of the mineralization of the DAC Deposit as well as the excellent exploration potential of the entire Despinassy project.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2006**

---

**INVESTMENT IN MINERAL PROPERTIES (continued)**

a) Despinassy Property, Quebec (continued)

Alto designed a second phase drill program to increase the drill density in the DAC deposit in order to upgrade the resource to an inferred category. The program was also designed to test gold mineralization along strike to identify other gold mineralized shoots along the Despinassy Shear Zone. The Company completed a 5,106 m drill program during the quarter in 19 drill holes and successfully encountered positive drill results. The drill program again confirmed the continuity of the mineralization on the DAC deposit and the potential for further gold mineralization along the auriferous Despinassy Shear Zone. Numerous high grade gold intercepts extended the multiple veins along strike and down plunge. Highlights include an intercept of 178.5 g/t over 1 m on the DAC deposit and the discovery of the Darla Zone grading 19.5 g/t gold over 2.1 m, one kilometre to the east of DAC deposit. Interpretation of all drill data will be conducted over the coming months to determine the next phase of development of the Despinassy project.

b) Coldstream Property, Ontario

Alto owns a 100% interest in 3,056 hectares nearby the past producing North Coldstream Copper/Gold mine in the Shebandowan Greenstone Belt. The Company recently acquired a further 1,216 hectares adjoining the Coldstream project in a series of three acquisitions, including Inco Limited's Burchell Lake property between Alto's property and the Moss River gold deposit containing 60 million tonnes grading 1.1 grams gold per tonne (as reported by Moss River Gold Mines Ltd.). Alto's East Coldstream gold deposit has an historical resource estimate of 7.6 million tonnes grading 2.0 grams gold per tonne, totalling 485,000 ounces of gold (see News Release dated May 4, 2005 for NI 43-101 disclosure of this resource estimate). The Company acquired, through an option from Canadian Golden Dragon Ltd., the possible strike extension of the East Coldstream deposit. A 2,000 m drill program is planned for June to verify and expand the reported resources and test the potential for bulk mineable gold deposits on the property.

c) Oxford Lake Property, Manitoba

Alto owns a 100% interest in 2,870 hectares of mineral claims and a 5,516 hectare mineral exploration permit, located 160 km southeast of Thompson, Manitoba. Noranda outlined an historical resource estimate of 800,000 tonnes grading 6 grams gold per tonne, totalling 154,000 ounces of gold at the Rusty Zone (see SEDAR Filing dated December 23, 2004 for NI43-101 disclosure on this resource estimate). Further gold mineralization up to 10 g/t gold over 2 metres was encountered by Noranda, 2 km east of the Rusty Zone in the same oxide iron formation. In total, 6 km of strike length of prospective auriferous iron formation has been identified on the property that has never been drilled. A consolidation of the land position in the past year has positioned the property for joint venture.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2006**

---

**INVESTMENT IN MINERAL PROPERTIES (continued)**

d) Mud Lake Property, Ontario

The Mud Lake property, located 25 km northeast of Beardmore, Ontario, consists of 1,696 hectares located in the Beardmore-Geraldton gold camp. The Company can earn a 100% interest in the project by making a final \$15,000 cash and 50,000 share payment in 2006.

A summer exploration program identified 10 main gold showings ranging from 4.1 to 50.6 g/t in grab samples. Gold occurs principally within quartz-carbonate veins and areas of silicification along a major auriferous shear structure that extends for 6 kilometres along strike within the Coyle Lake Intrusive. The property has only seen limited drilling since the 1930's. Several of the veined shears that are cut by stringers of pyrite and chalcopyrite carry the best gold values. A 16.9 line kilometre Induced Polarization survey has outlined 20 anomalies along strike of existing surface showings and in overburden covered areas. The Mud Lake property is ready for drilling.

e) Cote-Archie Lake Property, Ontario

The Cote Archie Lake property, located 5 km north of Beardmore, Ontario consists of 2,672 hectares in the Beardmore-Geraldton Gold Camp. The Company can earn a 100% interest in the project by making a final \$10,000 cash and 50,000 share payment in 2006. Alto confirmed the existence of an extensive shear hosted gold-quartz vein system (Cote-Archie Shear) that was traced along strike for over two kilometres on the property. Individual shears are up to 12 metres wide and carry highly anomalous gold values, with higher grades up to 11.2 g/t over 1.0m continuous chip sample.

The Cote-Archie Shear is a major auriferous shear system that is interpreted to lie on strike with the shear system associated with the Leitch Mine which produced 860,000 ounces gold at an average grade of 0.92 opt (31.5 grams per tonne) gold. Despite previous work by Placer Dome in the 1980's, the Cote-Archie Shear Zone had not been recognized before and consequently has only been sparsely drilled at its northeast end. The Cote-Archie Shear is a new and highly prospective auriferous vein structure that is ready for drilling.

f) Greenoaks Property, Ontario

The 100% owned Greenoaks property, consisting of 409 hectares is located 43 kilometres northeast of Beardmore, Ontario. A gold bearing quartz vein has been tested to a depth of 30 m with grades averaging 15 g/t. The property is ready for drilling of the down plunge extension of the mineralization.

g) Dog Lake Property, Ontario

The Dog Lake property, located 14km southwest of Missinabie, Ontario, consists of 8 patented claims covering 768 hectares, located in the Michipicoten greenstone belt. Prospecting and geological mapping were conducted on the property in the fall, 2005. A short program of prospecting, mapping and sampling was completed in late September. A 20 to 25 metre wide zone of strong shearing with wide spread carbonate alteration was uncovered. The shear occurs within a blue quartz-eye diorite and it is injected with quartz. Assay results from this program are pending.

**FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2006**

---

**INVESTMENT IN MINERAL PROPERTIES (continued)**

h) Alcudia Property, Ontario

The 100% owned Alcudia property totalling 320 hectares is located adjacent to Noront's Windfall Lake property in Urban Township. The Company has identified an area where a sampling program by mechanized trenching and stripping is recommended on Induced Polarization (IP) and structural targets.

i) Empress-Ridout Properties, Ontario

The Empress gold project is comprised of 1,344 hectares and is located adjacent to the Trans-Canada Highway near Terrace Bay in the productive Schreiber-Hemlo greenstone belt, Ontario. The Company has acquired a 100% interest from Cameco Corporation for cash consideration of \$20,000, subject to a 2% net smelter royalty with a buyback of 1% for \$1 million.

Gold mineralization on the project claims occurs within a 15-25 m wide shear zone identified at the historic Empress gold mine immediately to the west and traceable for 1.8 km within the property.

Past exploration work in the 1980's, and more recently by Cameco, includes trenching and 3,231 m of core drilling in 22 holes. Gold mineralization encountered includes 22.3 g/t across 3 m in trenching and 44.2 g/t over 0.6 m in drilling. The property is ready for drilling.

**FINANCIAL AND OTHER INSTRUMENTS**

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgement, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The carrying value of cash and cash equivalents, receivables, accounts payable and accrued liabilities approximate their fair value because of the short-term nature of those instruments.

**CRITICAL ACCOUNTING ESTIMATES**

The preparation of financial statements requires the Company to select from possible alternative accounting principles, and to make estimates and assumptions that determine the reported amounts of assets and liabilities at the balance sheet date and reported costs and expenditures during the reporting period. Estimates and assumptions may be revised as new information is obtained, and are subject to change. The Company's accounting policies and estimates used in the preparation of the Financial Statements are considered appropriate in the circumstances, but are subject to judgments and uncertainties inherent in the financial reporting process.

**ALTO VENTURES LTD.**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2006**

---

**CRITICAL ACCOUNTING ESTIMATES (continued)**

Property acquisition costs and related direct exploration costs may be deferred until the properties are placed into production, sold, abandoned, or written down, where appropriate. The Company's accounting policy is to capitalize exploration costs consistent with Canadian GAAP and applicable guidelines for exploration stage companies. The policy is consistent with other junior exploration companies which have not established mineral reserves objectively. An alternative policy would be to expense these costs until sufficient work has been done to determine that there is a probability a mineral reserve can be established; or alternatively, to expense such costs until a mineral reserve has been objectively established. Management is of the view that its current policy is appropriate for the Company at this time. Based on annual impairment reviews made by management, or earlier if circumstances warrant, in the event that the long-term expectation is that the net carrying amount of these capitalized exploration costs will not be recovered, then the carrying amount is written down accordingly and the write-down charged to operations. A write-down may be warranted in situations where a property is to be sold or abandoned; or exploration activity ceases on a property due to unsatisfactory results or insufficient available funding.

**RISKS AND UNCERTAINTIES**

The Company is in the mineral exploration and development business and as such is exposed to a number of risks and uncertainties that are not uncommon to other companies in the same business. Some of the possible risks include the following:

- a) The industry is capital intensive and subject to fluctuations in metal prices, market sentiment, foreign exchange and interest rates.
- b) The only source of future funds for further exploration programs, or if such exploration programs are successful for the development of economic ore bodies and commencement of commercial production thereon, which are presently available to the Company are the sale of equity capital or the offering by the Company of an interest in its properties to be earned by another party carrying out further exploration or development. Management was successful in accessing the equity markets during the period, but there is no assurance that such sources will be available on acceptable terms in the future.
- c) Any future equity financings by the Company for the purpose of raising additional capital may result in substantial dilution to the holdings of existing shareholders.
- d) The Company must comply with environmental regulations governing air and water quality and land disturbance and provide for mine reclamation and closure costs.
- e) The operations of the Company will require various licenses and permits from various governmental authorities. There is no assurance that the Company will be successful in obtaining the necessary licenses and permits to continue its exploration and development activities in the future.

**ALTO VENTURES LTD.**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2006**

---

**RISKS AND UNCERTAINTIES (continued)**

- f) There is no certainty that the properties which the Company has deferred as assets on its balance sheet will be realized at the amounts recorded. These amounts should not be taken to reflect realizable value.

Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, then actual results may vary materially from those described on forward-looking statements. The Company has not completed a feasibility study on any of its deposits to determine if it hosts a mineral resource that can be economically developed and profitably mined.

**MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS**

The information provided in this report, including the financial statements, is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying financial statements.

Management maintains a system of internal controls to provide reasonable assurance that the Company's assets are safeguarded and to facilitate the preparation of relevant and timely information. The company's CEO and CFO have confirmed to the Company that they are satisfied with the effectiveness of the Company's system of disclosure controls and procedures as at June 30, 2005 based upon their evaluation of the effectiveness of such disclosure controls and procedures.

**OTHER INFORMATION**

Additional information is available on the Company's website at [www.altoventures.com](http://www.altoventures.com) or on SEDAR at [www.sedar.com](http://www.sedar.com).

**CAUTION REGARDING FORWARD LOOKING STATEMENTS**

Except for historical information contained in this discussion and analysis, disclosure statements contained herein are forward-looking. Forward-looking statements are subject to risks and uncertainties, which could cause actual results to differ materially from those in such forward-looking statements. Forward-looking statements are made based on management's beliefs, estimates and opinions on the date the statements are made and the Company undertakes no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change. Investors are cautioned against attributing undue certainty to forward-looking statements.
